

**Follow the black dots on the map above**

**Parking**

**Gate to dock**

Go through downtown St. Paul to the Wabasha Bridge. Take the bridge across the Mississippi River and take the first right turn as you come off the bridge onto Water St. Proceed to the next intersection at Plato Blvd. and turn right. Follow this up a small hill to a "T" in the road.

Take a left turn and you will be looking directly at the St. Paul Yacht Club upper harbor. You can in fact see the "General" at the far end of the harbor from this point. Proceed about another two blocks down the hill and look for the gated entrance to the boatyard on your right. Park anywhere.

Once you are in the boatyard, look for a gray garage structure. The gate down to the docks is just east of the garage about 100 feet or so. You'll have to look closely because it's in between blocked up boats. Go down the ramp.
